

SPRINT PLANNING

AIM:

To assign user story to specific sprint for the project.

SPRINT PLANNING

SPRINT 1:

The screenshot shows the Azure DevOps interface for the 'Appointment_Booking_System Team'. The 'Sprints' section is active, displaying 'Sprint 1' with a duration of 'April 26 - May 10' and '0 work days remaining'. The board is organized into columns: 'New', 'Active', 'Resolved', and 'Closed'. Under the 'New' column, three user stories are listed:

- 36 Appointment Booking by Specialization (New, Unassigned)
- 34 Patient Registration and Secure Login (New, Unassigned)
- 33 User registration and login (New, Assigned to Pradhikshya Anand)

The left sidebar shows the project navigation menu, and the bottom status bar indicates the system temperature as 33°C and weather as 'Partly sunny'.

SPRINT 2:

The screenshot shows the Azure DevOps interface for the 'Appointment_Booking_System Team'. The 'Sprints' section is active, displaying 'Sprint 2' with a duration of 'April 26 - May 10' and '0 work days remaining'. The board is organized into columns: 'New', 'Active', 'Resolved', and 'Closed'. Under the 'New' column, two user stories are listed:

- 37 User login and registration (New, Unassigned)
- 35 Patient Registration (New, Unassigned)

The left sidebar shows the project navigation menu, and the bottom status bar indicates the system temperature as 33°C and weather as 'Partly sunny'.

SPRINT 3:

RESULT:

The sprint has been created for the project.
